### Summary

Motivated Full Stack Developer currently pursuing MCA with hands-on experience as a Web Development Intern at ApexPlanet Private Limited. Skilled in Java, Spring Boot, React.js, JavaScript, HTML, CSS, Python, and SQL. Passionate about building responsive web applications, solving real-world problems, and continuously learning new technologies.

### Skills

**Programming Languages:** Java, SQL, JavaScript

**Frontend:** HTML5, CSS3, React.js, Bootstrap

**Backend:** Spring Boot, Spring MVC, Hibernate, JPA, JDBC

**Databases:** MySQL, DynamoDB

**Developer Tools:** Git, GitHub, Maven, Postman, Apache Tomcat, VS Code

**Core Concepts:** REST APIs, OOP, Collections Framework, Multithreading, JWT Authentication

### Experience

**Web Development Intern** May 2026 – Jul 2026 *ApexPlanet Pvt. Ltd.* *HTML, CSS, JavaScript, React.js*

- Developed 5+ responsive web applications using HTML, CSS, JavaScript, and React.js, ensuring compatibility across desktop and mobile devices.
- Implemented interactive features and REST API integration to display dynamic content and improve user experience.
- Used Git and GitHub for version control and successfully completed assigned internship tasks within deadlines.

### Projects

**PATA – AI-Powered Address Intelligence System — Java, SpringBoot, React.js, REST APIs, AI Integration, Data Validation** 2026

- Developed an AI-powered system to parse messy and unstructured Indian delivery addresses into structured, normalized address information for last-mile delivery.
- Built backend REST APIs for address processing and validation, including pincode, district, and state verification using reference datasets and intelligent business logic.
- Implemented a confidence-scoring and decision engine using multiple verification factors to classify addresses and determine automated verification or manual review.
- Integrated a React.js frontend with backend APIs to deliver real-time address analysis, corrected addresses, confidence scores, verification evidence, and an explainable audit trail.

**Jobby App — React.js, JavaScript, Bootstrap, REST APIs, JWT, React Router** 2024

- Developed a responsive job search platform with secure user authentication and authorization.
- Implemented Login, Home, Jobs, and Job Details pages using React.js and React Router.
- Integrated REST APIs to fetch and display real-time job listings with search and filtering functionality.
- Used JWT authentication, protected routes, and Local Storage to maintain secure user sessions and improve user experience.

### Awards & Certifications

- **Java Full Stack Development**(2023) – NxtWave (CCBP 4.0 Technologies)
- **Web Development Internship**(2026) – ApexPlanet Private Limited

### Education

**Master of Computer Applications (MCA)**

**Pursuing-2027** *Aditya University*

*CGPA: 8.1 / 10*
